

*Since 1998, Briljent has designed and built customized training and learning solutions to help our federal clients. Our focus is on the people, process, and performance that drive learning and change.*

*Briljent is a health care training, project management, and change management company with a specialized team of governmental health care policy experts.*

Briljent has delivered learning and performance management solutions for 19 years to Fortune 500 companies, government agencies, trade associations, and small to medium-sized businesses.

We are a trusted partner with the Centers for Medicare & Medicaid Services and our training products have impacted the lives of over 50 million people. We utilize change management, communication, and unique learning tools to support state agencies in the face of transition.

Briljent is a trusted partner delivering comprehensive and innovative services to the Federal Government.
