

# UNLOCK THE POWER OF BEHAVIORAL HEALTH DATA

Briljent is a Woman Owned Business Enterprise (WBE) that helps state agencies and healthcare organizations with funding, planning, and implementing health IT solutions. We provide expertise in navigating state and federal policy, business planning, and systems strategy.

## Our Services

- **Readiness Assessment and Framework:** Evaluate your current capabilities and identify areas for improvement in data management, interoperability, and patient privacy.
- **Stakeholder Engagement:** Collaborate with key stakeholders to gather insights and foster inclusive solutions.
- **Data Governance and Compliance Evaluation:** Ensure your policies align with regulatory requirements and industry best practices.
- **Technology and Infrastructure Assessment:** Identify gaps in your existing systems and recommend upgrades for better data integration.
- **Staff Training and Change Management:** Prepare your team for successful implementation with tailored training and change management strategies.
- **Implementation Planning and Support:** Develop a customized action plan with step-by-step guidance for integrating behavioral health data.

**Briljent helped the Camden Coalition integrate behavioral health data into their HIE, resulting in improved care coordination and compliance with federal requirements. Our strategic recommendations and support throughout the project ensured a successful implementation.**

# Why Choose Briljent?

Briljent is at the forefront of data governance and strategy initiatives nationwide, focusing on tackling the complex and important challenge of data interoperability between state agencies and stakeholders. These efforts are critical to:

- **Expertise:** Our team has extensive experience across the healthcare landscape, ensuring we understand the unique challenges and opportunities in behavioral health data integration.
- **Customized Solutions:** We provide tailored recommendations and support to meet your specific needs and goals.
- **Proven Success:** Our case studies demonstrate our ability to deliver impactful results for a variety of clients, from community-based organizations to state health agencies.

**Briljent's team of experts combines a unique set of perspectives and skills across all aspects of data strategy and modernization to offer a best-in-class client engagement experience.**

## Our Data Strategy Capabilities

- Assess technology and policies
- Engage stakeholders and build relationships
- Develop data strategy and governance models
- Prepare for change and new data infrastructure, integration, and exchange
